1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following is an examiner's statement of reasons for allowance: applicants amendment of 12/26/2007 has corrected the 112, second problems set forth in section 2 of the action mailed 9/11/2007, as well as providing significant additional details of the processing sequence that distinguish over the applied art, as discussed by applicants in their remarks of 12/26/2007.

An update of the search found no new significant prior art, although the patent to Kraus-Heringer et al. (7,297,364 B2), which is not prior art, is cited as relevant to the state of the art, with it additionally noted that for refurbishing the headlamp, this process unlike the present claims, removes the lamp.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
